When the acclaimed percussion group Hands On'Semble voted recently not to record a new album, the only 'Aye' vote belonged to Gloss, who then proceeded to record his debut solo album, *The Ayes Have It, Vol. 1*. 'Aye' might as well have been spelled 'I', as Gloss has done it all himself, producing, recording, mixing, and playing a myriad of rhythmic and melodic percussive instruments. Gloss is a true master of almost anything that can be hand-struck, which he so eloquently demonstrates with sounds and textures that blend together in a delicious confectionary for the ear. It's as musically compelling and sonically pleasing as a percussion album can be. Gloss may not be able to overdub himself at Bluewhale like he does on his record, but hearing what he does live is more than worth the trade-off.
